

# Custom Moulding

If you have an idea for a new product or cannot buy an old product that you need, then call us to discuss your requirements. We offer a comprehensive injection moulding service from initial concept to design prototype right through to the finished product.

# Terms & Conditions

For example our *PourMaxx™* Jugs are made from food grade polypropylene and our *RainMaxx™* rain gauges from almost unbreakable polycarbonate. Every quality Fjord product that we produce is strong, lightweight and UV resistant.
